

# 1 Kb YEA Ladder DNA Marker III

Ready-to-use DNA ladder

Recommended storage condition: -20 °C

Loading volume:	5 $\mu$ l/well
Size range:	0.25~12 kb
Concentration:	110 ng/ $\mu$ l
Package size:	110 $\mu$ g/ml

## 1 Kb DNA Ladder, ready-to-use

The Yeastern Biotech's 1 Kb YEA DNA Ladder Marker III (BYD008-1ML) contains 13 discrete fragments ranging from 0.25 kb to 12 kb. It is supplied in a ready-to-use format containing blue tracking dyes, and mixed at varied concentrations.

For best results, load 5  $\mu$ L of the marker per well. It allows sizing and concentration estimation of DNA fragments on agarose gels generated by PCR or restriction digestion.
